Name: Elizabeth Test

BRONCHOSCOPY DISCHARGE INSTRUCTIONS

You may have an elevated temperature after the bronchoscopy.

Report excessive cough with production of blood and/or increasing shortness of breath.

You may begin sips of water at _____. If you can swallow the water without difficulty, you may eat and drink. Avoid iced drinks, which could stimulate coughing.

You should not drive on the day of your bronchoscopy because the medications you received during the procedure may cause drowsiness.

Call the office at (207) 828-1122 if you have any problems.
